

CALIBTECH

Company Profile

<https://Calibtech.co.za>

OFFERING

Sales

We provide "equipment list here" quality civil engineering equipment across Africa

Repairs

We repair "equipment here" to as good as new condition

Calibrations

We provide accurate calibration of the following

SERVICE INSTRUMENTS

Nuclear density/moisture gauges

CPN
Troxler
Humboldt
InstroTek

Nuclear Moisture/Density Gauge Calibrations (Full 3 block calibration)

Full mechanical inspection
Cleaning and lubrication
Signal adjustment and inspection
24 hour extended electronic inspection test

Compression Presses, Ovens and Scales

Concrete cube press
CBR/UCS/ITS/MAR press
Marshall press
Ovens and Scales

General

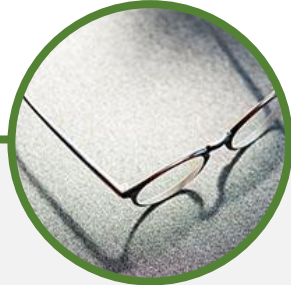

Full mechanical inspection, adjustment and repair of most civil engineering equipment

ABOUT

Why we exist!

CalibTech (PTY)Ltd is a new B-BBEE Level 1 enterprise established to provide quality calibration and repairs to laboratory equipment services to all material testing civil engineering laboratories across South Africa and Africa with a strong focus on customer satisfaction. We can also provide SANAS Calibration

Vision

To expand and service the civil engineering industry across the African continent adhering to the highest measurement standards and aligning to industry best practices.

Mission

CalibTech strive for operation excellence and efficiency to ensure that all services rendered meets industry standards and customer expectations.

Strategy

Uphold and contribute to measurement standards in conjunction with the various industry bodies (CSIR, SANAS and NLA)
